

Providing supported employment and housing for people in recovery from mental illness since 1970.

An Evening with Jearlyn Steele— A Benefit for Tasks Unlimited

October 27, 2011, 6:00 - 9:00 pm
Golden Valley Golf & Country Club

Please help us make our fall benefit a success!

Tasks Unlimited is currently seeking donations for our annual fall benefit. This year's event includes stories of hope from those who benefit from Tasks Unlimited's services and a performance by musical guest, Jearlyn Steele.

Your donations of new items, gift cards, or quality vintage collectibles will be used in our silent auction. Sports memorabilia, trips, and jewelry have also been very popular. Don't forget your donations are tax-deductible and can be arranged to be picked up by our staff.

Your generous donation will directly benefit:

- Innovative programs such as Oakwood Residence—a unique program designed for mothers with mental illness and their children.
- Mental health services to help keep people healthy and stable without hospitalization.
- Stable, peer-supported housing that allows people to integrate into the community.
- Supportive employment services to help maintain employment.

About Tasks Unlimited

Tasks Unlimited supports mental health recovery through community-based employment and peer-supported housing for over 200 people diagnosed with serious and persistent mental illness.

At Tasks Unlimited, people with mental illness are less likely to be hospitalized because they live and work together as a group. Tasks Unlimited's programs help people with mental illness integrate into the community by providing supported employment and housing at a lower cost than conventional treatment programs.
